

October 13, 2023

Effective December 17, 2023, Aetna Better Health of Louisiana will no longer require prior authorization for the below listed codes. This change is part of a larger optimization initiative intended to improve operational efficiency and reduce unnecessary provider administration activity.

As always, thank you for being a valued member of Aetna's provider team. Please do not hesitate to contact our Provider Experience team with any questions or comments.

| Code  | Description   |
|-------|---|
| 93462 | Left heart catheterization by transseptal puncture through intact septum or by transapical puncture (List separately in addition to code for primary procedure) |
| 93352 | Use of echocardiographic contrast agent during stress echocardiography (List separately in addition to code for primary procedure)                              |
