

Aetna Better Health® of Michigan
28588 Northwestern Hwy, Suite #380B
Southfield, MI 48034
1-866-316-3784

Dear Provider,

Effective, January 1, 2025 Aetna Better Health of Michigan will change the way these two laboratory codes are reviewed and paid.

These two codes will no longer be managed through the prior authorization process. They will be managed **By Report** at the time of claim submission. That is, claims will be reviewed and approved based on appropriate diagnosis. These claims will pend to our Payment, Integrity, Appeals & Banking (PIAB) Team who will review:

- Aetna CPB (<https://www.aetna.com/health-care-professionals/clinical-policy-bulletins.html>); and
- Medical necessity review based on appropriate diagnosis codes.

If claim is not submitted with an appropriate diagnosis, the claim will be denied. Claim may be resubmitted with medical records attached or a revised claim.

Please refer to the list below for the codes covered by this process.

Code	Code Description
81513	Infectious disease, bacterial vaginosis, quantitative real-time amplification of RNA markers for Atopobium vaginae, Gardnerella vaginalis, and Lactobacillus species, utilizing vaginal-fluid specimens, algorithm reported as a positive or negative result fo
81514	Infectious disease, bacterial vaginosis and vaginitis, quantitative real-time amplification of DNA markers for Gardnerella vaginalis, Atopobium vaginae, Megasphaera type 1, Bacterial Vaginosis Associated Bacteria-2 (BVAB-2), and Lactobacillus species (L.
