

MSY

MSY Things to Consider

- What is the long-term plan for this youth/family?
- What is the involvement of other community partners?
 - Are all appropriate agencies (e.g., CPS, School, CBDD) engaged with this youth/family team?
 - Is the care team meeting on a regular basis to discuss the service/support needs for this youth and family?
 - Is there an intervention plan in place for in-home/community support?
- Are the services being requested the most age appropriate for the youth?
- What is the therapeutic benefit of the services/supports being requested?
 - What is the continued therapeutic benefit of the services being requested?
- What was the outcome of the youth's last treatment/ therapy?
 - If residential services have been received, did the youth complete treatment successfully? If not, why?
 - What were the recommendations at discharge?

MSY

MSY Things to Consider

- Have there been any recommendations from providers/ECHO for services?
 - Were these attempted and what was the outcome?
 - If not, what were the barriers?
- What is the current progress and what, if any, are the barriers to that progress?
 - What adjustments are being made to individualize treatment to fit the youth's needs?
- What does parent/guardian engagement look like?
- What is the parent/guardian doing to prepare for the youth's transition home?
- What support has been established for the family?

Is there enough detail in the application to address all these questions?
