HEALTHY ALL YEAR

Stay safe at home

Hello

Falls are a common cause of injury, especially for older adults. Sometimes it can feel harder to move around or feel confident about daily activities after taking a fall. But with a few simple changes, you can make your home much safer and keep doing the things you enjoy.

Room	Fall prevention tips	
Living room	Lay down non-slip rugs: Make sure rugs are secure or non-slip.	Use supportive furniture: Chairs with sturdy armrests can help you stand.
Bedroom	Clear the floors: Remove clutter and keep pathways open.	Use bright lighting: Use nightlights and make sure rooms are well-lit.
Bathroom	Install grab bars: Place near the toilet and inside the shower.	Keep items in reach: Place soaps and shampoos at easy-to-reach levels.
Kitchen	Organize your cabinets: Keep everyday items on lower shelves.	Use a sturdy step stool: Use a stable step stool with a handle if you need to reach high shelves.
Stairs & hallways	Install good lighting: Motion-sensor lights make for easier navigation.	Mark the steps: Use bright tape on stair edges for visibility.

Have you scheduled your Annual Wellness Visit (AWV)? This covered exam is a chance to discuss health concerns with your Provider and even get a fall risk assessment. Call your Care Team at 1-844-362-0934 (TTY: 711) from 8 AM to 5 PM ET, Monday through Friday.

Find the right care fast

Use this flowchart to decide if you need a visit with your primary care provider, urgent care or emergency room treatment.

Do you have a life-threatening condition?

Can your primary care provider (PCP) help?

es

Yes

Go to the Emergency Room (ER) or call 911

if you have slurred speech, chest pain, difficulty breathing, uncontrollable bleeding, major broken bones, a head injury, sudden loss of vision or numbness, seizures or other symptoms of serious and life-threatening conditions.

Contact your PCP for non-urgent needs such as chronic care, medication refills, illnesses like a cold or routine physicals.

No

Consider the following options when you need fast treatment for a non-critical issue:

Your Medicaid renewal checklist

Is it time to renew your Medicaid plan? Doing so will help you stay enrolled in your HMO D-SNP. Head to **Medicaid.gov** for more information.

RETAIL CLINIC: These are health centers located in some stores, pharmacies and supermarkets. Visit for minor ailments when your PCP isn't available. That includes cold and flu symptoms like a sore throat, blood pressure checks, medication refills, immunizations and minor injuries like a sprained elbow.

URGENT CARE: Go for a fever, nausea, fractures, stitches, rashes and other conditions that don't require the ER. Urgent care clinics have licensed professionals on staff and can often do more than retail clinics when it comes to diagnosing and treating patients.

Completing your health survey each year helps us deliver the benefits and personalized care plans that are right for your changing health needs. Call your Care Team at 1-844-362-0934 (TTY: 711) to learn more.

Ways to save with your Aetna plan
